GM'S NOTE:

I was already feeling tired and lazy and hoping that I would find someone to short-cut with when who should appear but Eddie Punk. Just over 30 members attended for Geeman's run at Leader Garden and along with 2 guests, Peter and Susan who joined us last week, it made for a decent pack. By the time I came back from the run however the numbers had increased as the 'dinner club' members had turned up!!

The announcements done, off we went to the corner and the On In. I was already at the back and Eddie, true to his word, waited for me. As usual with most terrain in Penang, it is not the distance that counts but the difficulty and the complexity of the terrain itself which is the real daunting task. The easiest routes are the tracks but even they go a long way up and of course that means a long way down too. Cutting across means negotiating the usual obstacles of thorns, wet ground, wild boar haunts and

streams all of which are plentiful in the Leader Garden area and they come at you from all directions.

Of course the hare wants to confound you and throws challenges your way such as skirting, going up only to have to come down again and then go up again etc etc. as well as climbing the rocks and crossing the aforesaid streams.

Eddie “guided” me on a tar track which led right to the TNB power station on Jln Permai corner near the Indian Temple. A fat padlock on the gate meant we had to take the easier route of turning back and it was over an hour by the time we returned to the run-site, where the usual array of FRBs were already cooled down and into the tiger!!

After about another 20-30 mins the slower hounds began to emerge. Our guests look very tired and Susan said “I did my first run last week and I’ve done my last run this week. It’s too tough”. Looks like our hills are maintaining their reputation of being challenging! But kudos to Susan as she did the whole thing once again and she should take great pride in that!

The delicious food of spaghetti and bolognaise sauce, made by the hare himself, had people coming back for seconds and thirds and there was still enough to take home too for those who hadn’t had enough. To add to the festivity, Cheng and Frank brought out the durians and chempadak from their truck and mouths were soon full of the glorious fruits. Thanks for the fruits you two and good to see you back once more from your travels.

A short circle ensued and then all went back to eating, drinking and having fun well into the late evening. Thank you David for such a great night and for stepping in to fill the gap in the hareline. It is very much appreciated.

CIRCLE

1. First on ice were the guests, Peter and Susan plus Melons who arrived late.
2. Sai Seng was give due thanks for helping out opening the fruits.
3. The Hare Geeman was given his deserved thank for setting a good challenging run and delicious food. Many thanks from us all.

A TRIP DOWN MEMORY LANE

Interesting experience returning to Penang for a holiday after a 30+ year absence and on an impulse, deciding to join a HHH run again! We lived here for 4 years in the early 80's. Hash of course was much easier then, shorter runs, gentle slopes, open paths - well that was how we remembered it! Quite a shock to find the run now take 90 minutes, and not really a run more a steep mountain climb, through an incredibly dense overgrown jungle rapidly claiming back what I recalled was extensive orchards and terraces and the heat just about enough to send us home in an ambulance. The less charitable might suggest that we were much fitter then. Nevertheless a very enjoyable experience although for us perhaps more the before and afters - meeting friendly welcoming locals. We particularly enjoyed the excellent food at the end – special thanks to the providers - this appears to be a very successful innovation – my recollection was that many of the runners disappeared between run and makan and sing song. Very appreciative that the beer wagon still appears at the end of the run! Not so sure that Hash runs are good for wives though, mine seemed a little uninterested in further activity at bed time.

Thank you all for making us feel so welcome and Jess and Mike for providing the transport! Keep running, keep singing! On and On!

FUNNIES

'Well you see, Norm, it's like this . . . A herd of buffalo can only move as fast as the slowest buffalo. And when the herd is hunted, it is the slowest and weakest ones at the back that are killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells. Now, as we know, excessive intake of alcohol kills brain cells. But naturally, it attacks the slowest and weakest brain cells first. In this way, regular consumption of beer eliminates the weaker brain cells, making the brain a faster and more efficient machine. And that, Norm, is why you always feel smarter after a few beers.'
