GM's Notes

It was still humid at 6pm when the hashers gathered for their usual run in the bush. For me it was a question of doing the run set by the hare or doing the run the way I know. In the end discretion was the better part of valour and knowing how unfit I was after being absent for three weeks we decided to do it 'Our Way'! So we went straight up the hill instead of skirting around and coming at it from the reverse angle. It was still quite a climb however and took a good 55 mins to get to the top where we picked up the 'On Down' paper.

On the way down we commented to each other that we hadn't been passed by anyone and we wondered if we were the last to return even with our shortcut but just as we reached the construction site Iceman caught us up and he laughed when I asked him if there was anyone behind him as his answer was nearly everyone!!!

Sai Seng has set so many runs from Shamrock that it is difficult to find new ways but he does try his best to make things interesting and different when possible! Surprisingly we were earlyish back to the runsite (1hr 20mins) and the others trickled in piecemeal after that with Eddie Punk

and Beauty Queen returning from the wrong direction having come out by Mount Pleasure for some reason.

By 7.30 the food was served and it was delicious vegetarian fried rice with chicken loh bak. People came back for seconds and thirds and still couldn't get enough.

As all settled down, we had the circle and a duet choir of General and Iceman to contribute to the songs. As things were winding down later in the evening there was an SOS call from Alexis who had discovered she had a flat tyre on the way down the hill. Ever helpful hashers helped her change it as she watched and some then followed her home just to make sure she reached safely. A big thank you to all who helped out!!

Circle

1. Hash Bra (Ann) was the sole guest of the day and also helped to set the run. Welcome and we do hope you will join us soon!
2. A charge from the floor by Iceman saw the On Sec on the ice. The charge was reading the newspaper at a hash gathering!! We're not that boring On Sec!!!
3. The GM then called out Bibi Tulips to cool her behind. The reason was Bibi started early but hadn't told anyone what she was doing. At this point Take Care tried to pour water on her but was prevented by Speedhound so he too got to share the ice with Bibi.
4. Congratulations to Money Manfred on completing 200 runs.
5. A second charge from the floor saw the GM on ice for being picky about the down down songs, as one song was repeated twice. After that ALL the down down songs were the same and sung by General and Iceman!! Good singing guys!!
6. Iceman had another charge which brought Eddie Punk and Beauty Queen to the ice. Apparently Iceman spotted both in the bush coming from the wrong direction and panting away. His charge was that they shouldn't be making love on the run!! After the run is OK however!!
7. Black German, as Hare of the Day, was next called to the ice throne and received grateful thanks for a good run and delicious food cooked by Uncle Bee.
8. Welcome back once again to the Werners, Theo and Karin, who are with us once again for a about six weeks. It is always good to see them and especially the fancy pants being worn!!

Next week we are at Bee Gallery for Beauty Queen's run. Please come and support.

FUNNIES

A woman asks her husband at breakfast time, "Would you like some bacon and eggs, a slice of toast and maybe some grapefruit juice and coffee?"

He declines. "Thanks for asking but I'm not hungry right now. It's this Viagra," he says. "It's really taken the edge off my appetite."

At lunchtime, she asks him if he'd like something. "How about a bowl of soup, homemade muffins, or a cheese sandwich?"

He declines. "The Viagra," he says, "really trashes my desire for food."

Come dinner time, she asks if he wants anything to eat. "Would you like a juicy rib eye steak and some scrumptious apple pie? Or maybe a rotisserie chicken or tasty stir fry?"

He declines again. "No," he says, "it's got to be the Viagra. I'm still not hungry."

"Well," she says, "would you mind letting me up? I'm starving...."

Two guys were sitting around talking one afternoon over a cold beer.

After a while the first guy says to the second, "If I was to sneak over to your house and shag your wife while you was off fishing', and she got pregnant and had a baby, would that make us related?"

The second guy crooked his head sideways for a minute, scratched his head, and squinted his eyes, thinking real hard about the question.

Finally, he says, "Well, I don't know about related, but I reckon it'd make us even."

Jim is on his deathbed and knows the end is near.

His nurse, his wife, his daughter and two sons are with him.

He asks for two witnesses to be present and a camcorder to be in place to record his last wishes, and when all is ready he begins to speak:

"My son Charles, I want you to take the Mayfair houses".

"My daughter Sybil, you take the apartments over in the east end."

"My son Jamie, I want you to take the offices over in the City Centre."

"Violet, my dear wife, please take all the residential buildings on the banks of the river."

The nurse and witnesses are blown away as they did not realize his extensive holdings, and as Jim slips away, the nurse says:

"Mrs. Rutledge, your husband must have been such a hard-working man to have accumulated all this property".

Violet replies, "Property? ... The asshole has a paper route!"

In the heyday of sailing ships, all war ships and many freighters carried iron cannons. Those cannons fired round iron cannon balls. It was necessary to keep a good supply near the cannon. However, how to prevent them from rolling about the deck? The best storage method devised was a square-based pyramid with one ball on top, resting on four resting on nine, which rested on sixteen. Thus, a supply of 30 cannon balls could be stacked in a small area right next to the cannon. There was only one problem....how to prevent the bottom layer from sliding or rolling from under the others. The solution was a metal plate called a 'Monkey' with 16 round indentations.

However, if this plate were made of iron, the iron balls would quickly rust to it. The solution to the rusting problem was to make 'Brass Monkeys.'

Few landlubbers realize that brass contracts much more and much faster than iron when chilled.. Consequently, when the temperature dropped too far, the brass indentations would shrink so much that the iron cannonballs would come right off the monkey; Thus, it was quite literally, 'Cold enough to freeze the balls off a brass monkey.'

(All this time, you thought that was an improper expression, didn't you.)
